

Leave Management System

User Guide & Documentation

1. Dashboard Overview

After successful login, the dashboard provides a complete summary of your leave and attendance information. You can view upcoming holidays, remaining leaves, late hours, permissions, and attendance statistics. The calendar section allows you to track your activity across dates.

2. Applying Leave Request

Navigate to Employee Request → Employee Request. Select the request type (Planned or Unplanned), choose the leave type, and specify the date range. The system automatically calculates total days. You can also apply for half-day leave and select session timing. Provide a proper reason before submitting.

3. Leave Request Tracking

All submitted leave requests are displayed in the 'My Leave Requests' section. You can monitor request status such as Pending, Approved, or Rejected. Export options like CSV, Excel, PDF, and Print are available for reporting.

4. Attendance Request

Navigate to Employee Request → Attendance Request to apply for attendance-related adjustments. Available request types include Work From Home, Late Login, Missed Punch, Early Logout, and Permission. Select the date range, choose request type, enter reason, and save the request.

5. Attendance Request Tracking

All attendance requests are listed in the Attendance Request List section. You can review request details, status updates, and approval remarks.

6. Company Policy

The Company Policy section contains all leave-related rules defined by the organization. It includes leave balance rules, accrual policy, carry forward rules, and eligibility criteria. Employees should review these policies before applying for leave.

7. Company Guidelines

This section outlines general rules for attendance, leave usage, and workplace conduct. Employees are expected to comply with these guidelines for smooth organizational operations.

Company Guidelines

General rules for attendance, leave and work culture

Issued by HR Department · Please comply for smooth operations

8. Log Out Process

When a user logs out of the system, the action is automatically recorded in the system logs for tracking and audit purposes.

End of Day Closure Requirement

If the user is logging out after completing the workday (final checkout), they must select the checkbox:

“End of Day Closure Confirmed”

Important Notes

- ✓ The checkbox must be selected only after completing the final checkout for the day.
- ✓ The system will update the user's attendance status only when this checkbox is selected during logout.
- ✓ If the checkbox is not selected, the end-of-day attendance may not be recorded properly.
